Protect Your Investment with Durable Fender Covers

Keep Your Fenders Looking Like New, Increase Their Lifespan

KEY FEATURES:

Fully Reversible Design: Switch between two colors (Black & Blue) for versatility.

Superior Durability: Constructed with double layers for enhanced abrasion resistance.

Weather-Resistant: High UV resistance, water-repellent, and color-fast fabric to withstand harsh marine environments.

Quick-Dry Technology: Antibacterial, dry-wick fabric ensures fast drying, preventing mold and mildew buildup.

Easy Installation: Durable double cordlock fastener with a heavy elastic drawstring for a secure fit.

PROVEN PERFORMANCE:

Outperforms Competitors: Excels in six out of seven industry-standard tests, including UV resistance and color fastness.

Lab-Tested: Verified by a leading textile laboratory for exceptional durability and resilience.

Leading Textile Lab Conclusion:

"CMP fabric stands out for its exceptional performance, proven resilience, and color retention… making it the ideal choice for marine applications where durability is paramount."

- ☑ **Custom fit for both twin eye and center hole fenders.**
- ☑ **Compatible with fender diameters ranging from 6 to 12 inches.**
- ☑ **Available in Black & Blue and fully reversible.**
